Re: Junior Software Developer JUNIO01144

Dear Hiring Manager,

I am very excited about the opportunity to begin my career with WES for the position of Junior Support/Software Engineer that you have advertised on Indeed and on your website. I feel that I am a great candidate for this position because I've found that my skills strongly matched with the requirements that are needed. Currently, I am enrolled at George Brown College in Computer Programmer and Analysis in my second year.

As a current student at George Brown College, I have gained a great amount of knowledge and hands on experience coding multiple languages like C#, MVC and .Net Framework. I'm great working with others and have the ability to lead a team as I have been in multiple group projects and completed them with great results on time and within guidelines. I never try to complete anything in only one way, I am very open minded and would consider everything to achieve the end product. Experiences from school allowed me to grow as a person and I am confident that I would be able to succeed in this position with your company as these skills go hand in hand.

Thank you for your consideration and to review my resume. I look forward to speaking with you soon to set up a time for an interview and talk more in detail. I can be reached at 647-675-5172 or dilan.roessell@gmail.com

Respectfully yours,

Roessell Dilan Piyasenage Don
